Q&A

Q1

I'm in an emergency, what should I do?

Emergency number in Korea is 119. Whether calling 119 using a standard or mobile phone, dial 119 sans area code. If you do not speak in Korean, they will put you through BBB(<http://bbbkorea.org>) or 1330(Korea Travel hotline). *** BBB stands for "before Babel Brigade"

Q2

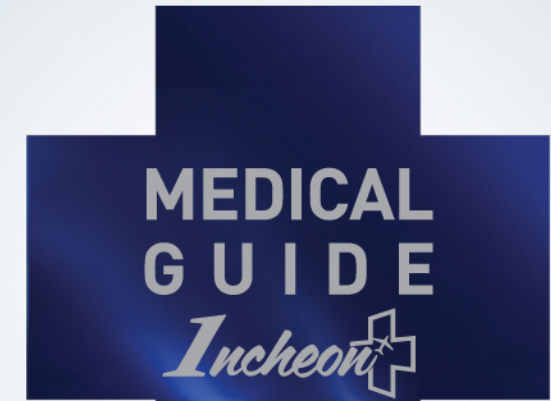

I hope you can explain me about the health insurance system in Korea. What is the difference between the national health insurance and a private health/cancer insurance?

Korea has national health insurance system. It is divided into two categories : Employer-Sponsored Insurance and Community Insurance. Typically, NHIS covers basic medical services. For more information, visit <http://www.nhis.or.kr/static/html/wbd/ga/wbdga0101.html> or call English line 02-390-2000.

Q3

How and where can I buy my medications?

Korean pharmacies sell both prescribed and over-the-counter medications(digestives, nutrients, vitamins, aminopyrine and some cold medicines). Medications including antibiotics, hormone drugs and pain killers for serious symptoms should be purchased with a prescription.
